The Adaptive Intelligent Materials & Systems (AIMS) Center, Director: Professor Aditi Chattopadhyay, School for Engineering of Matter, Transport and Energy (SEMTE), Arizona State University, is participating in the High School Apprenticeship Program (HSAP) through the Army Educational Outreach Program (AEOP). This program will take place during Summer 2018. Students will have the opportunity to work on a research project on advanced composites which make aircraft safe and intelligent. Students will be able to work up to 300 hours during the summer and they will receive an educational stipend.

Motivation to spend time and effort in learning through guided and self-initiated study is required. Applicants must be current 11th or 12th graders and have an interest in science and mathematics.

Additional information and an online application form can be found at the AEOP website: http://www.usaeop.com/programs/apprenticeships/hsap/

The deadline for students to apply is February 28, 2018. For questions, contact:
